

NEUROLOGY CLINICAL ASSESSMENT / OPD FORM

For clinical documentation by qualified healthcare professionals

1. PATIENT DETAILS

Patient NameUHID / MRN

AgeSex

☐ Male

☐ Female

☐ Other

Date of BirthDate of Visit

PhoneReferral / Source

AddressOccupation

2. CHIEF COMPLAINTS

Complaint

Duration

Onset / Pattern

Remarks

3. HISTORY OF PRESENT ILLNESS

Symptoms / Details	Notes
Headache / facial pain	
Seizures / blackouts	
Weakness / paralysis	
Numbness / tingling	
Dizziness / vertigo / imbalance	
Speech / swallowing difficulty	
Vision / diplopia	
Tremor / involuntary movements	
Memory / cognitive / behavioral changes	
Other neurological symptoms	

4. RELEVANT HISTORY

Past Medical History

☐ Diabetes

☐ Hypertension

☐ Stroke/TIA

☐ Epilepsy

☐ Migraine

☐ Parkinsonism

☐ Other: _____

Surgical / Hospital History

Drug / Food Allergies

Current Medications

Family Neurological History

Social History

☐ Smoking

☐ Alcohol

☐ Substance use

☐ Sleep issues

☐ Other: _____

5. VITALS & GENERAL EXAMINATION

BP	Pulse	Respiratory Rate
Temperature	SpO ₂	Weight
General Appearance ☐ Normal ☐ Distressed ☐ Drowsy ☐ Other: _____	GCS E__ V__ M__ / 15	Pain Score __ / 10

6. HIGHER MENTAL FUNCTIONS

Consciousness

☐ Alert ☐ Drowsy ☐ Stuporous ☐ Comatose

Orientation

Person: ☐ Intact ☐ Impaired Place: ☐ Intact ☐ Impaired Time: ☐ Intact ☐ Impaired

Attention / Concentration

☐ Normal ☐ Impaired

Memory

☐ Immediate normal ☐ Recent impaired ☐ Remote impaired

Speech / Language

☐ Normal ☐ Dysarthria ☐ Aphasia ☐ Other: _____

Mood / Behavior

☐ Normal ☐ Altered ☐ Other: _____

7. CRANIAL NERVE EXAMINATION

CN	Examination	Right	Left	Remarks
I	Smell (if indicated)			
II	Visual acuity / fields / pupils / fundus			
III, IV, VI	Pupils / EOM / ptosis / diplopia			
V	Facial sensation / corneal reflex / jaw			
VII	Facial movements / symmetry			
VIII	Hearing / vestibular symptoms			
IX, X	Palate / gag / voice / swallowing			
XI	Shoulder shrug / head rotation			
XII	Tongue movement / deviation			

8. MOTOR SYSTEM

Finding	Right	Left	Remarks
Bulk			
Tone			
Pronator drift			
Power – Shoulder			
Power – Elbow			
Power – Wrist			
Power – Hand / Fingers			
Power – Hip			
Power – Knee			
Power – Ankle / Foot			
Involuntary movements			

9. REFLEXES

Reflex	Right	Left	Remarks
Biceps			
Triceps			
Supinator			
Knee			
Ankle			
Plantar			
Other / clonus			

10. SENSORY SYSTEM

Modality	Right	Left	Remarks
----------	-------	------	---------

Light touch
Pinprick / pain
Temperature
Vibration
Joint position
Cortical sensation

11. COORDINATION, GAIT & MENINGEAL SIGNS

Finger–nose test	☐ Normal ☐ Abnormal	Heel–shin	☐ Normal ☐ Abnormal
Rapid alternating movements	☐ Normal ☐ Abnormal	Romberg	☐ Negative ☐ Positive
Gait	☐ Normal ☐ Ataxic ☐ Spastic ☐ Parkinsonian ☐ Other	Tandem gait	☐ Normal ☐ Abnormal
Neck stiffness	☐ No ☐ Yes	Other meningeal signs	☐ No ☐ Yes

12. INVESTIGATIONS

Investigation	Date Result / Impression
MRI / CT Brain or Spine	
EEG	
NCS / EMG	
Blood Tests	
Other	

13. CLINICAL IMPRESSION & PLAN

Neurological Localization / Impression

Provisional Diagnosis

Differential Diagnosis

Treatment / Medication Plan

Advice / Precautions

Follow-up

14. SIGNATURE

Consultant / Doctor Name	Registration No.
Signature	Date / Time

Note: This template is for clinical documentation and should be adapted to the clinician's specialty, local regulations, and institutional requirements.
